

MANUAL CLEANING SCREENING SYSTEM

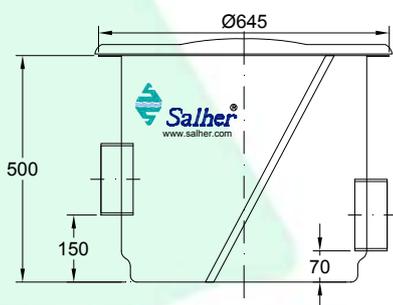

REF: CVA - ARG / CVA- ARF

Application:

- Coarse solids (equal or larger than 30 mm) removal from waste water.

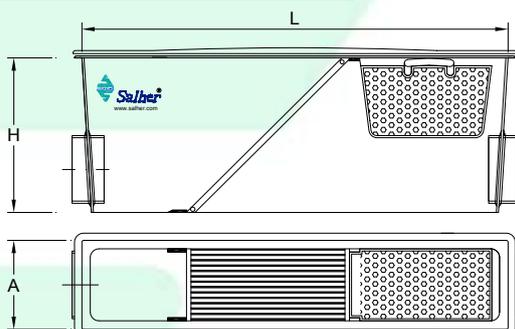

Characteristics:

- Salher brand, model CVA-ARG.
- The manhole is manufactured in Glass Fiber Reinforced Polyester (GFRP) with orthophthalic resins.
- Perforated stainless steel screen separates solids larger than 30 mm.
- Manual refuse recovery through the upper GFRP cover.
- PVC inlet and outlet pipes.
- Stainless steel scraper to remove the refuse.

REF.	Ø [mm] MANHOLE	H [mm]	INLET [mm]	OUTLET [mm]	SCREEN OPENING [mm]	Ø PIPE [mm]
CVA-ARG	645	500	150	70	30	110-160
CVA-ARF	645	500	150	70	10	110-160
